

## Stepping Your Students Through a Playlist

Once you've built a Playlist for your teaching session, it's easy to step your students through it.

Click Deliver at the top of the screen.

Plan Deliver

The first Track on your Playlist will appear in the Preview pane, so you can see what's coming up.

To get all your students in this experience. Just click the orange Play button underneath the Preview pane.

Once you've pressed Play, you'll notice that the icon for the current experience will appear next to each connected Device on the right.

To move onto the next experience, click the Skip button. You can also go straight to any experience by clicking the icon on the Track; when you hover over it, a Play button will appear.

To allow your students to leave the experience, click the orange Pause button at the bottom of the screen.

Devices	
Active	0
Connected	9
Dazzling Peafowl	
Perfect Gnu	
Shy Cat	
Beautiful Butterfly	
Spectacular Yak	
Puce Spider	
Yellow Turtle	
Good Mouse	
Helpful Jackal	

While the Play button is active, your students will not be able to leave the experience and explore in their headsets independently. This allows you to maintain focus during teaching sessions.
