

Saving and Finding Your Playlists

Once you've created a Playlist you're happy with, you can save it to use again later. Just click the Save icon at the bottom of the Playlist pane.

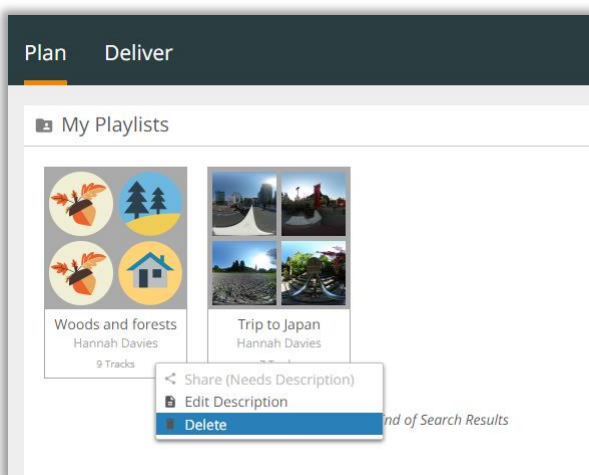

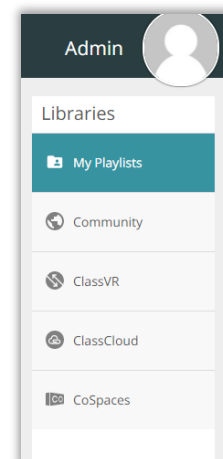

Next, name your Playlist and click the Save button.

To find your saved Playlist again, click My Playlists at the right of the screen, in the Libraries tab.

Simply drag and drop any of your saved Playlists onto the Playlists pane.

If you'd like to edit a Playlist you've already made, drop it onto the Playlist pane and add, reorder or remove Tracks as necessary. Then Click the Save icon.

Click the Playlist name to overwrite it, or type a new name if you'd like to keep both versions.

To delete a Playlist, right-click the thumbnail in My Playlists and select Delete.
